

Reshell [Re + Shell]

HERZGEH

Your Pet's Safest Haven on the Go.

Perfect Structure

This makes it easier than ever for pets to stay by their owners' side.

The Smart A-Frame Design:

The wide bottom ensures the carrier never tips over in the car, while the sloping walls create a cozy den for your pet.

No Droopy Floors:

Outer shell design keeps the floor solid, eliminating any drooping or sagging from the bottom.

Proprietary Patents Stability:

The patented strap structure stably supports the weight of the floor, preventing the bag from shaking or tilting, as well as the weight of the pet.

Lightness Modular System

Haven of 1.3kg

Lighter on your shoulders, uncompromised in safety and comfort.

Lightweight, Built to Last:

The outer shell, made of recyclable thermoplastic PP(Polypropylene), is lightweight while maintaining its shape and providing long-lasting durability.

Modular flexibility:

Shoulder straps, storage pouches, and ISOFIX connectors—attach or detach on demand.

Just 1.3kg, The Safest Haven:

Detach for just 1.3kg—your lightest, most comfortable haven for daily journeys.

Attach what you need, shed what you don't.

RESHELL ISO:
The Complete Full-Modular System

Sustainable Modular System

One Frame Countless Possibilities

“With 3 ways to transform its modular structure,
Reshell lets you make your pet’s home the way that they want it.”

HERZGEH RESHELL

Cage Reshell

Is your pet curious about the world?

The Cage Reshell Offers breathability and visibility during travel.

Cave Reshell

Does your pet prefer a little privacy?

The Cave Reshell can be used like bedding by completely removing the top cover for laundry care, and the top cover has removable panels at both ends.

HERZGEH RESHELL

Blanket Reshell

Does your pet like to snuggle up and stay cozy?

The Blanket Reshell keeps your pet comfy on all sides with its fuzzy, warm fabric edges and adjustable drawstring chin rest.

Paw by Paw, Sustainably!

“Not trash, Just wash.”

We are committed to a sustainable world for people and pets.

Zero-Adhesive Assembly :

Since no adhesive is used, there is no chemical smell, so pets feel more comfortable inside the bag.

Easy-Clean Outer Shell :

The durable Outer Shell can be wiped clean with a damp cloth, so you can place it on the ground without worry.

Machine Washable Insert:

Inserts are made without chemical reinforcements or adhesives, making them soft, safe, and fully washable.

Pet Mobility Safety System

Safety First

Advanced technology for worry-free travel.

ISOFIX Safety :

Equipped with an ISOFIX ratchet belt, the international standard for reinforced car seat safety, ensuring a secure fit in your vehicle.

FIDLOCK Magnetic Tech :

Features German-engineered Fidlock magnetic buckles for effortless, one-handed attachment and a secure lock.

The Velcro Fastening :

The Velcro fastening system offers a solution for connecting to a 3-point seat belt in front seats or vehicles without ISOFIX anchors.

Car Trip Made Safer

Impact testing

We independently test the ISOFIX connection function.

Dummy Weight

3.55kg

Small Pet Standard

Our Safety Guardian: Denny A specialized dummy engineered to mimic a pet's weight and center of gravity, ensuring our safety tests are as realistic as possible.

Impact Speed

51 km/h

Urban Crash Scenario

To verify real-world safety, we conducted a sudden braking test at a speed of 50km/h.

Test Results

Stable even during sudden stops at 50km/h. Seamless integration with ISOFIX for ultimate vehicle safety.
